Test #2 Study Guide

Test scheduled for Thursday, 23 May. It is a 20 question, multiple choice exam.

You must bring to class a SCANTRON-882E form (available at the PSU bookstore) to record your answers. If you do not have a SCANTRON-882E, your test will not be graded. Be sure to bring a #2 pencil as well.

Test will cover the following topics:

• tasks & functions
• testbench construction
• VCD files
• coding styles (including their effect on synthesized results)
• blocking vs non-blocking assignments
